Mix & Match: the materials of life

One thing we are really proud of is Life's Mix & Match concept. We offer different frame, cushion and tabletop options for a lot of furniture. We will gladly explain them to you.

Cushion colours and materials

All-weather cushions (developed by Life) can stay outside all year round. These cushions are made of high-quality synthetic products. When it rains, water seeps through the cushion cover and through the inner foam. By pressing on the cushion or laying the cushions on their side, they are dry in a relatively short time. Our All weather cushions are available in three different colours.

Soltex cushions feel more natural and slightly softer than All weather cushions, are strong and are easy to maintain. Soltex cushions can be left outside throughout the spring and summer seasons, but are best stored indoors for the rest of the year. Our Soltex cushions are available in five

different colours, including the new cushion colour Dune.

Comforma cushions can stay sheltered outdoors all season. The fabric feels like an interior fabric, but has properties that allow them to stay outside in all weather conditions. This is because they are treated with a Scotchguard layer. However, we do recommend storing these cushions inside in prolonged rain. Comforma cushions are ideal for under a veranda or canopy. Our Comforma cushions are available in two different colours.

Frames

Life Outdoor Living has a wide range of aluminium garden furniture. The reason why most of the Life collection is made of this material is because it is very suitable for outdoor use. Aluminium is rust-proof, lightweight, UV-resistant,

colourfast and very easy to maintain. We work with three basic frame colours, making it easy to combine different types of furniture.

Table tops

Ceramic is the collective term for all objects made of fired clay. Ceramic has the look and feel of natural stone and is easy to combine with other materials. Our ceramic tops consist of a few thin layers of ceramic glued onto a sheet of safety glass. We do this to give the tops extra strength, with the ability to bend it slightly without cracking.

Advantages of ceramics:

- Low-maintenance
- Acid-resistant
- Extra strong due to combination with hardened glass

Teak is a hardwood species that lends itself perfectly to the manufacture of outdoor furniture. For all our wooden products, we only use certified teak, the SVLK quality mark or FSC® quality mark. Normally, teak is a light brown wood that turns a beautiful platinum-grey as the weather progresses.

Advantages of teak:

- Does not splinter
- Minimal action
- Heat absorbing
- SVLK of FSC® approved
- Contains natural oils

Polywood is made of a very strong type of plastic called polystyrene. This material is easy-care, lightweight, weatherproof and treated against UV radiation.

Voordelen polywood:

- Does not fade
- Minimal impact
- Easy to maintain

Lounge

Did you know that at Life, everything is tailored to your personal requirements? As the only garden furniture specialist that manages the entire process from design to delivery, we create, produce, sell, and install all our products ourselves. This unique approach allows us to present a distinctive collection of the highest quality, opening a world of limitless possibilities for outdoor enthusiasts.

For instance, if you're particularly fond of a certain lounge set but would prefer to see it paired with a different coffee or side table, that's no issue with us. A large portion of our lounge sets are designed to be combined, allowing you to assemble the lounge set entirely to your own taste. Whether you opt for a spacious family sofa or a cosy loveseat, we offer three different cushion materials and no fewer than ten cushion colours, all at no extra cost. This way, we always find the perfect combination that suits your style and preferences. At Life, your personal experience is at the forefront. We look forward to working with you to create your ideal outdoor space!

Lima lounge

Discover the Lima lounge: a luxurious set with organic design in our collection. This set exudes luxury through the use of a special material called RuCore, a rubber foam core wrapped with rope.

Aluminium

Lava

Teak

Robust

Soltex

Graphite

This not only provides a striking thickness, but also prevents water from soaking the rope. The backrests of the Lima lounge set are made of extra thick rope. The lounge cushions with button detail are unique to this set and add a subtle, sophisticated touch.

Whether you're enjoying a relaxing afternoon by yourself or socialising with friends, the Lima lounge set offers a place of ultimate comfort and elegance. Add a touch of exclusive luxury to your outdoor space.

With its slightly higher seat height, the Urban lounge feels active, but with the backrest at the right angle, you can effortlessly lean back and enjoy the fresh outdoor air in complete relaxation.

The accompanying cushions are flexible, making them easy and compact to store, but still provide comfort when you use them. Even without cushions, this set offers exceptional comfort, thanks to the wire work in the seat. This makes the lounge perfect for a relaxing cup of morning coffee without having to get out the cushions right away. Transform your urban garden into an oasis of comfort and style.

The Ibiza lounge set is available in several configurations, so there is sure to be one that fits your outdoor space. The Ibiza is made of aluminium, a high-quality material that requires little care. We understand that not everyone has the time to use maintenance products. The occasional refreshing spray from the garden hose is therefore enough to keep our aluminium sets looking good. With its sleek design and durable materials, the Ibiza lounge set exudes Life's core values. Whether you have a compact balcony or a large garden, this set will fit perfectly in your outdoor space. Choose comfort and style with the Ibiza lounge set, and enjoy carefree relaxation in the fresh outdoors.

Loungers

Is there anything more delightful than enjoying the lovely weather in your own garden? Sink into one of our sun loungers and let your thoughts drift away under the warm embrace of the sun. Designed with your utmost comfort in mind, our loungers are the perfect spot to unwind. The aluminium frame not only makes them easy to maintain, but their adjustability also ensures you can always find the perfect position to enjoy your outdoor space.

For those seeking the peak of poolside leisure, we recommend our sun loungers with All Weather upholstery. This fabric features tiny holes that allow water to drain through quickly, ensuring the cushions dry promptly. If you prefer a softer, more natural-looking fabric, then Soltex or Comforma Outdoor are ideal choices. These materials are not only easy to care for and water-repellent, but they also add a touch of luxury to your relaxation experience. Just bear in mind that they may take a bit longer to dry after a dip in the pool. Perfect for those who love to soak up the sun! In summary, transform your garden into a haven of comfort and tranquillity with our versatile range of loungers.

Spring lounge

The Spring sun lounge has a lightweight aluminium frame that is rustproof and easy-care. The seat is made of high-quality All-Weather material, making it suitable for year-round use.
